It’s a nightmare they don’t want to remember, but on her birthday, baby Brylee was without oxygen temporarily. This dip caused a serious drop in her heart rate. She was immediately rushed to NICU and spent the first 19 days of her tiny life with tubes, lights, beeps and a constant loving family by her side. Thanks to the generous support of the Permian Basin people, Brylee’s parents, Wesley and Sydney were able to spend those 19 days by her side without the extra worries of where they would sleep, what they would eat, or even where to park. The Permian Basin people, provided this and hundreds of families those answers and helped bring them home.

Four months later, Brylee is not skipping a beat, or a meal! She is a happy and beautiful girl and almost 15lbs! Thank you Permian Basin for your donations that support families, and BRING ‘EM HOME!

“Thanks to the generous support of the Permian Basin people, Brylee’s parents, Wesley and Sydney were able to spend those 19 days by her side without the extra worries of where they would sleep, what they would eat, or even where to park.”
